### REMARKS

Applicant submits that this Supplemental Preliminary Amendment places this application in better condition for examination. In a Preliminary Amendment dated July 02, 2007, Applicant inadvertently provided incorrect claim numbering without taking into account the preliminary amendment filed June 29, 2005.

It is submitted that the present application is now in condition for examination on its merits, and action to that fact is earnestly solicited. In the event the Examiners discover matters which might be resolved by further discussion, they are invited to contact the undersigned at the local telephone number listed below.

Respectfully submitted,  
Berenato, White & Stavish
